DR. JOHNSTON
PROCLAIMS TO THE AFFLICTED That he has discovered the most certain, a cious plan of treating SECRET DISEASES

that has ever yet been presented to the world. By his plan, founded on observation made in the Hospitals of Europe and America, he will insure

ACURE IN TWO DAYS,

A CURE IN TWO DAYS,

OR NO CHARGE.

No Mercury or Nauseous Drugs used.

Weakness, Loss of Organic Powers, Pains in the Loins,
Disease of the Kidneys, Affections of the Head, Throat, Nose
and Skin, Constitutional Dability, and all those horrid affections arising from a Certain Secret Habit of Youth, that solitary practice, more fatal to its victims than the song of the
Syrens to the mariners of Ulysses—blighting their most
brilliant hopes or anticipations, rendering Marriage, etc.,
impossible.

A CURE WARRANTED, OR NO CHARGE. Young Men especially, who have become the victims of solitary Vice, that dreadful and destructive habit which an nually sweeps to an untimely grave thousands of young men of the most exalted talents and brilliant intellect, who might otherwise have entranced listening Senates with the might otherwise have entranced latering Schales with the thunders of eloquence, or waked to ecstacy the living lyre, may call with full confidence. MARRIAGE.

may call with full confidence.

MARRIAGE.

Married persons, or those contemplating marriage, being aware of physical weakness, should immediately consult Dr. J., and be restored to perfect health.

Office, No. 7 South Frederick street, Baltimore, Maryland, on the left hand side, going from Baltimore street, seven doors from the corner. Be particular in observing the name and number, or you will mistake the place.

DR. JOHNSTON,
Member of the Royal College of Surgeons, London, Graduate from one of the most eminent Colleges of the United States, and the greater part of whose life has been spent in the Hospitals of London, Paris, Philadelphie, and elsewhere, has effected some of the most astonishing cures that were ever known. Many troubled with ringing in the ears and head when asleep, great nervousness, being alarmed at sudden sounds, and bashfulness, with frequent blushing, attended some times with derangement of mind, were cured immediately.

TAKE PARTICULAR NOTICE.

Dr. J. addresses all those who have injured themselves by private and improper indulgences, that secret and solidary habit, which ruin both body and mind, unfitting them for either business or society.

These are some of the sad and melancholy effects produced These are some of the sad and melancholy effects produced by early habits of youth, viz. Weakness of the Back and Limba, Pains in the Head, Dimness of Sight, Loss of Muscular Power, Palpitation of the Heart, Dyspepsia, Xervous Irritability, Derangement of the Digestive Functions, General Deblifty, Symptoms of Consumption, &c., &c.

Mentally.—The fearful effects on the mind are much to be dreaded. Loss of Memory, Confusion of Ideas, Depression of Spirits, Evil Forebodings, Aversion of Society, Self Distrust, Love of Solitude, Timidity, &c., are some of the evils produced.

Love of Solitude, Timidity, &c., are some of the evils produced.

NERVOUS DEBILITY.

Weakness of the system, Nervous Debility and premature decay generally arise from the destructive habit of youth, that solitary practice so fatal to the healthful existence of man, and it is the young who are most apt to become its Victims, from an ignorance of the dangers to which they subject themselyes. Parents and Guardians are often misled with respect to the cause or source of disease in their sons and wards. Alas! how often do they ascribe to other causes the wasting of the frame, Palpitation of the Heart, Dyspepsia, Indigestion, derangement of the Nervous System, Cough, and Symptoms of Consumption; also those serious Mental effects, such as loss of Memory, Depression of Spirity, or peculiar fits of Melancholy, when the truth is, they have been caused by induging in Pernicious but alluring practices, destructive to both Body and Mind. Thus are swept from existence thousands who might have been of use to their Country, a pleasure to their friends, and ornaments to Society.

DR. JOHNSTON'S INVIGORATING REMEDY FOR Society. DR. JOHNSTON'S INVIGORATING REMEDY FOR OR-

This grand and important Remedy has restored strength and vigor to thousands of the most debilitated individuals, many who had lost all hopes, and been abandoned to die. By its complete invigoration of the Nervous System, the whole faculties become restored to their proper power and functions, and the fallen fabric of life is raised up to beauty, consistency and duration, upon the ruins of an emacated and premature decline, to sound and pristine health. Oh, how happy have hundreds of misguided youths been made, who have been suddenly restored to health from the devastations of those terrific maladies which result from indiscretion! Such persons, before contemplating

should reflect that a sound mind and bedy are the most ne-cessary requisites to promote communiant happiness. Indeed, without this, the journey through life becomes a weary pil-grimage; the prospect heurly darkens to the view; the mind becomes shadowed with despair, and filled with the melan-

and with our case apply immediately.

He who places himself under the care of Dr. Johnston may religiously confide in his honor as a Gentleman, and confidently rely upon his skill as a Physician.

TO STRANGERS.

The many thousands cured at this institution within the last ten years, and the numerous important Surgical Operations performed by Dr. J., witnessed by the Reporters of the papers and many other persons, notices of which have appeared again and again before the public, is a sufficient guaranty that the afflicted will find a skilful and honorable publishers.

TAKE NOTICE.

It is with the greatest rejustance that Dr. Johnston permits his card to appear before the public, deeming it unprofessional for a physician to advertise; but unless he did so, the afflicted, especially strangers, could not fail to fall into the hands of those imprudent, boasting impostors—individuals destitute of knowledge, name, and character—pedlars, shownshow mechanics, for advertising themselves as the uals destitute of knowledge, name; and character—pedlars, shoemakers, mechanics, &c., advertising themselves as physicians; ignorant quacks, who keep you trifling month after month, as long as possible, and in despair leave you with ruined health to sigh over your galling disappointment. It is this motive alone that induces Dr. J. to advertise, for he alone can cure you. To those unacquainted with his reputation he deems it necessary to say, that his credentials or diplomas always hang in his Office.

Weakness of the Organs immediately cured, and full victor restored.

SOUTHERN JOURNAL, PUBLISHED WERKLY, TO ADVOCATE DIRECTRADE, MANUFACTURES, AGRICULTURE, AND THE DEVELOPMENT OF SOUTHERN RESOURCES,

BY C. G. BAYLOR. THE importance of such a journal as the above needs no exposition. The material and substantial interests of the South have been too long neglected. The "Corron Plant" is established to promote these interests, keeping entirely alcoft from party or party politics. A complete forcign and domestic correspondence has been arranged. The best talent of the country will contribute to our columns, which will present a medium of general communication, correspondence, and information for the friends of the measures we advocate. The proper steps have been taken in Europe and America to lay the foundation of a direct foreign trade at the South, and to introduce our coarse manufactures into the continental European market. One object of the "Corron Plant" will be, as the organ of direct trade, to stimulate the South to carry out this important measure.

We call upon the Southern merchants generally to send us their business cards, that we may lay them before the country, to enable the friends of Southern commerce, manufactures, &c., to discriminate properly in their desire to promote Southern meterprise. WASHINGTON, D. C.

country, to enable the friends of Southern commerce, manufactures, &c., to discriminate properly in their desire to promote Southern enterprise.

The importance of Washington City, as a point of location for such a journal, especially in regard to opening foreign correspondence and promoting our foreign relations, is apparent. The opportunity of seeing here, also, members of congress from every district of the country, presents means of general co-operation not to be found elsewhere.

To the Cotton, Sugar, Rice, and Tobacco Planters, we look confidently for support; and to the friends of "Direct Trade," throughout the South we say, "show your faith by your works."

your works."

The regular issue of the "Cottom Plant" will commence in June next. Advertisements are particularly requested to be forwarded early. Business letters addressed to C. G. Baylon, Washington City, D. C.

Correspondence from all interested in the cause we advocate is solicited, particularly as to the crop, as we wish to give correct information on a subject which is of so much importance to the Planter, and in representing which he has been so often injured.

Postmasters are requested to act as agents for us: and to all who approve our cause we look for good feeling, kindness, and support.

We, the undersigned, Senators and Representatives, cordially recommend the above journal to the confidence and
support of the South.

AMERICAN TELEGRAPH

The Potomac Bridge. A writer in the Intelligencer is astonished that

the restoration of the Potomac bridge has not been urged by the citizens of Washington, who are so deeply interested. Even our City Councils, he says, who are almost unanimous for the repair of the old or the building of the new bridge at the present site, have failed to make any recommendation to Congress touching immediately on this subject. The proposition to place the bridge at or near the Observatory, he regards as strange, and asks if it can be supposed that the convenience, prosperity, and future prospects of the metropolis of the Union, with a population of forty thousand, (which in ten years will be doubled,) are to be sacrificed to remedy what is believed by many to be an imaginary injury to a small town of six or eight thousand inhabitants; and if the citizens of Washington will submit quietly to travel around by Georgetown in order to get to Alexandria; if they will, in fine, for a hundred other reasons, give their consent for the removal of the bridge out of Washington, or place it in a situation to be almost out of their reach He declares it to be an error that the Long Bridge has been the cause of the filling up of our channel, and says he has the assurance of one of the oldest and most intelligent steamboat captains that within the last twenty years the Wash-

ington channel has deepened several feet. This whole subject is important; and that the Committee on the District and Congress may be enabled to act with decision, we think it is very desirable that the views and wishes of our citizens, and of their authorities, should be promptly and definitely made known, as also those of our neighbors in Georgetown.

Mr. Whitney's Impersonations.

We were not so fortunate as to hear Mr. Whit ney last evening; but we perceive that in the Republic of this morning he is "damned with faint praise." There is no doubt in our minds believe. But the problem is simply whether such performances will attract the sovereigns-whether a furor can be gotten up in his favor; for witha furor can be gotten up in his favor; for with-out a furor nothing can be done in the show line towns were full of life, bustle, and character; and nowadays. We wonder that lecturers on astronomy and chemistry do not always carry barrel-organs and phantasmagorias with them.

You are mistaken, friend Clipper. Her chance is good. Let her be brought out. Combination tickets are just the things. The Alexandria Telegraph says:

"The Whig meeting held at the court-house on Tuesday evening last, we sincerely trust, may be productive of much good. The strong appeals of Messrs, Fowle and Snowden, in behalf of union and harmony, certainly will not be lost upon the Whigs of Alexandria. We fully concur in the views so forcibly presented by these gen-tlemen, that the Whigs of Alexandria are in duty bound to sustain the regular candidates of their party. The obligation to support the nominees of their conventions is to our mind clear and un-

"Have you got e'er a fip in yer pockets" asked a darkie of a pretty hard-looking white man for whom he had just done some little "chore." "Yes, I always keep 'em there," said the white man, sulkily. "Oh!" said the disappointed darkie, "more in sorrow than in anger." It is bad economy to disappoint darkies when they have a right to expect liberality. It makes them disobliging-very!

So far as we are informed, the act to elect certain officers of the city by the people is very distasteful, and will, as it ought, in all probability, meet with a decided rejection. [Norfolk Beacon.

Dickens.

Charles Dickens, the most popular writer of his time, was born in February, 1812, at Land-port, Portsmouth. His father, the late Mr. John of his great excellence in many of his recitations, Dickens, in the earlier part of his life enjoyed a but in his accuracy of imitation we do not always post in the Navy Pay Department, the duties of which required that he should reside from time to time in different seaports: now at Plymouth, now at Portsmouth, and then at Sheerness. "In the father of "Boz" was at times fond of dila-

His first engagement was on the True Sun, an wards passed into the reporting Morning Chronicle. On this paper he obtained reputation as a first-rate man-his reports being exceedingly rapid, and no less correct. In the columns of the Chronicle he soon gave proofs of other talents than those of a reporter; for in the evening edition of that journal appeared the ume, entitled "The Ingoldsby Legends; or, Mirth Sketches of English Life and Character, afterand Marvels, by Thomas Ingoldsby, esq., (the Rev. wards collected to form the two well-known volumes of Sketches by Boz, published respectively

Appleton & Co., and obtained great success; and the publisher New York, of a collation, by Richard Bentley, of the collected edition, anxious to make the most of the prize which had fallen to his lot, gladly came to an arrangement with Dickens and Seymour, the comic draughtsman-the one to write and worthy their title. The Miscellany gave fame to the other to illustrate a book which should exthese productions, and to their author, in the hibit the adventures of a party of Cockney sportslays in which they first appeared; and time will men. Hence the appearance of Pickwick, a book which made its author's reputation, and the publisher's fortune. After the work had commenced, poor Seymour committed suicide, and Mr. Hablot K Brown was selected to continue the illustra-

tions, which he did under the signature of Meanwhile, Mr. Dickens had courted and married the daughter of Mr. Hogarth, then and now a musical writer-a man of considerable attainments, and who, in his earliest days, whilst r writer to the Signet, in Edinburg, enjoyed the intimate friendship of Sir Walter and other literary notables of the day adjoining the Modern Athens. The great success of Pickwick brought down upon its author demands from all sides for another work, and "Boz" agreed to write Nicholas Nickleby, to be published in monthly parts. In the prefatory tices, which gave additional value to the cheap and elegant reprint of the works of Dickens, we are indulged with slight glimpses of his own recollections, personal and literary. It is unnecessary to note the titles of Mr. Dickens's subsequent works, all of which have justly obtained
